

Minnesota Council on Transportation Access Coordinating Council on Access and Mobility Update

Judy L. Shanley, Ph.D.
Asst. VP, Education & Youth Transition
National Director, Transportation & Mobility
Easterseals Inc.

Steve Workman
NCMM Consultant
Director, Transport New Hampshire

Building on What Exists and What is Planned

- Expanding and strengthening the MCOTA Strategic plan
- Thriving mobility management network that creates the opportunity for CCAM agencies to contribute
- Highlighting the commitment to transportation coordination, efficiency, and efficacy across MN state agencies
- Developing supports to sustain the connections across mobility management and MCOTA activities
- Making it “easy” to coordinate across agencies in MN

Creative solutions about shared vehicle use, volunteer driver coordination ideas, excitement for future learning (from a regional mobility manager)

The Why?

Coordinating Council on Access and Mobility

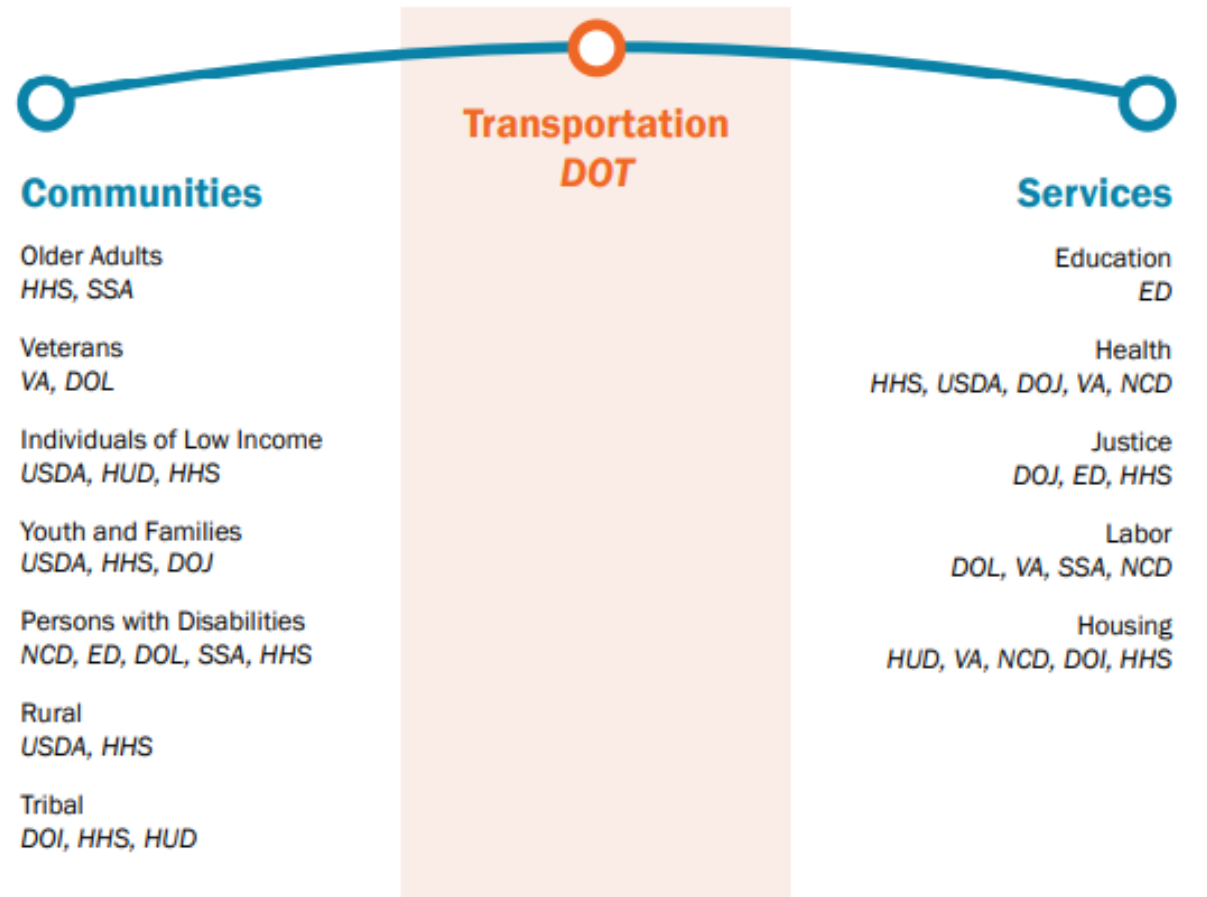

Figure 1. The CCAM's broad and diverse set of communities, perspectives, disciplines, services, and stakeholders

**Our Work
Together will
Focus On**

**Are these
tenets true
across MCOTA
agencies?**

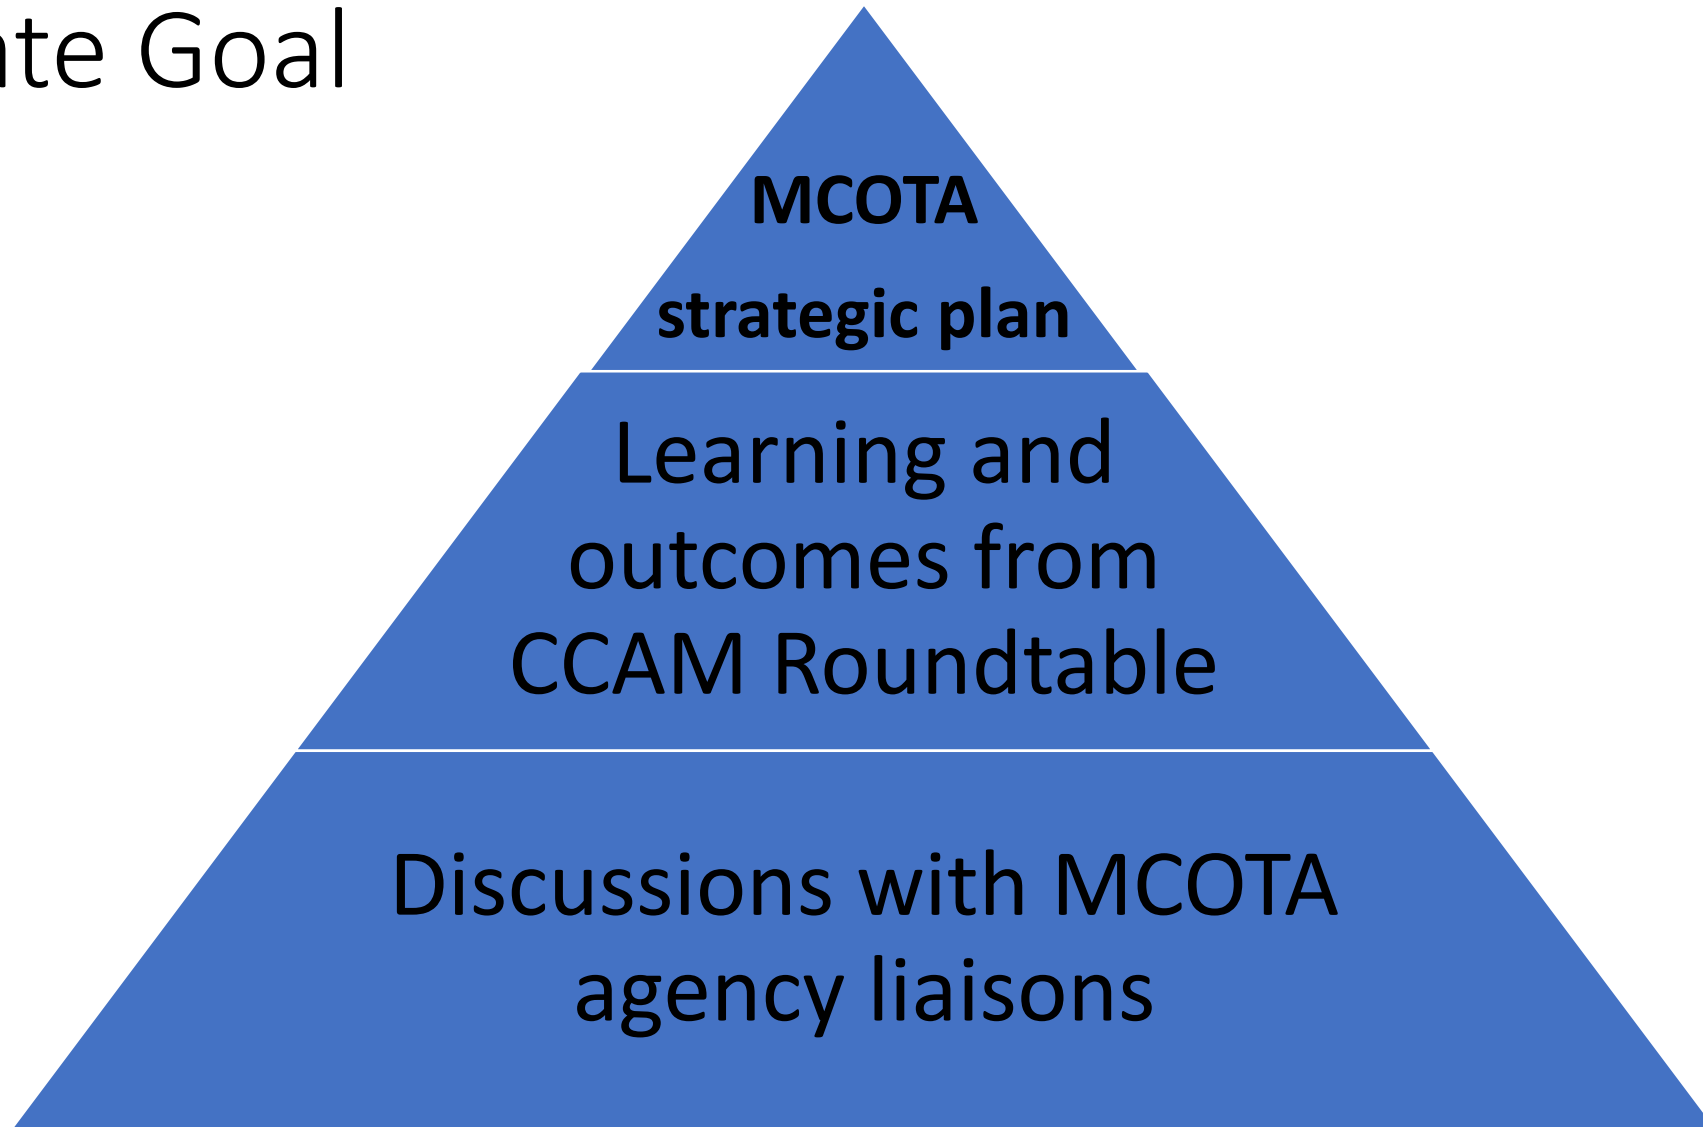

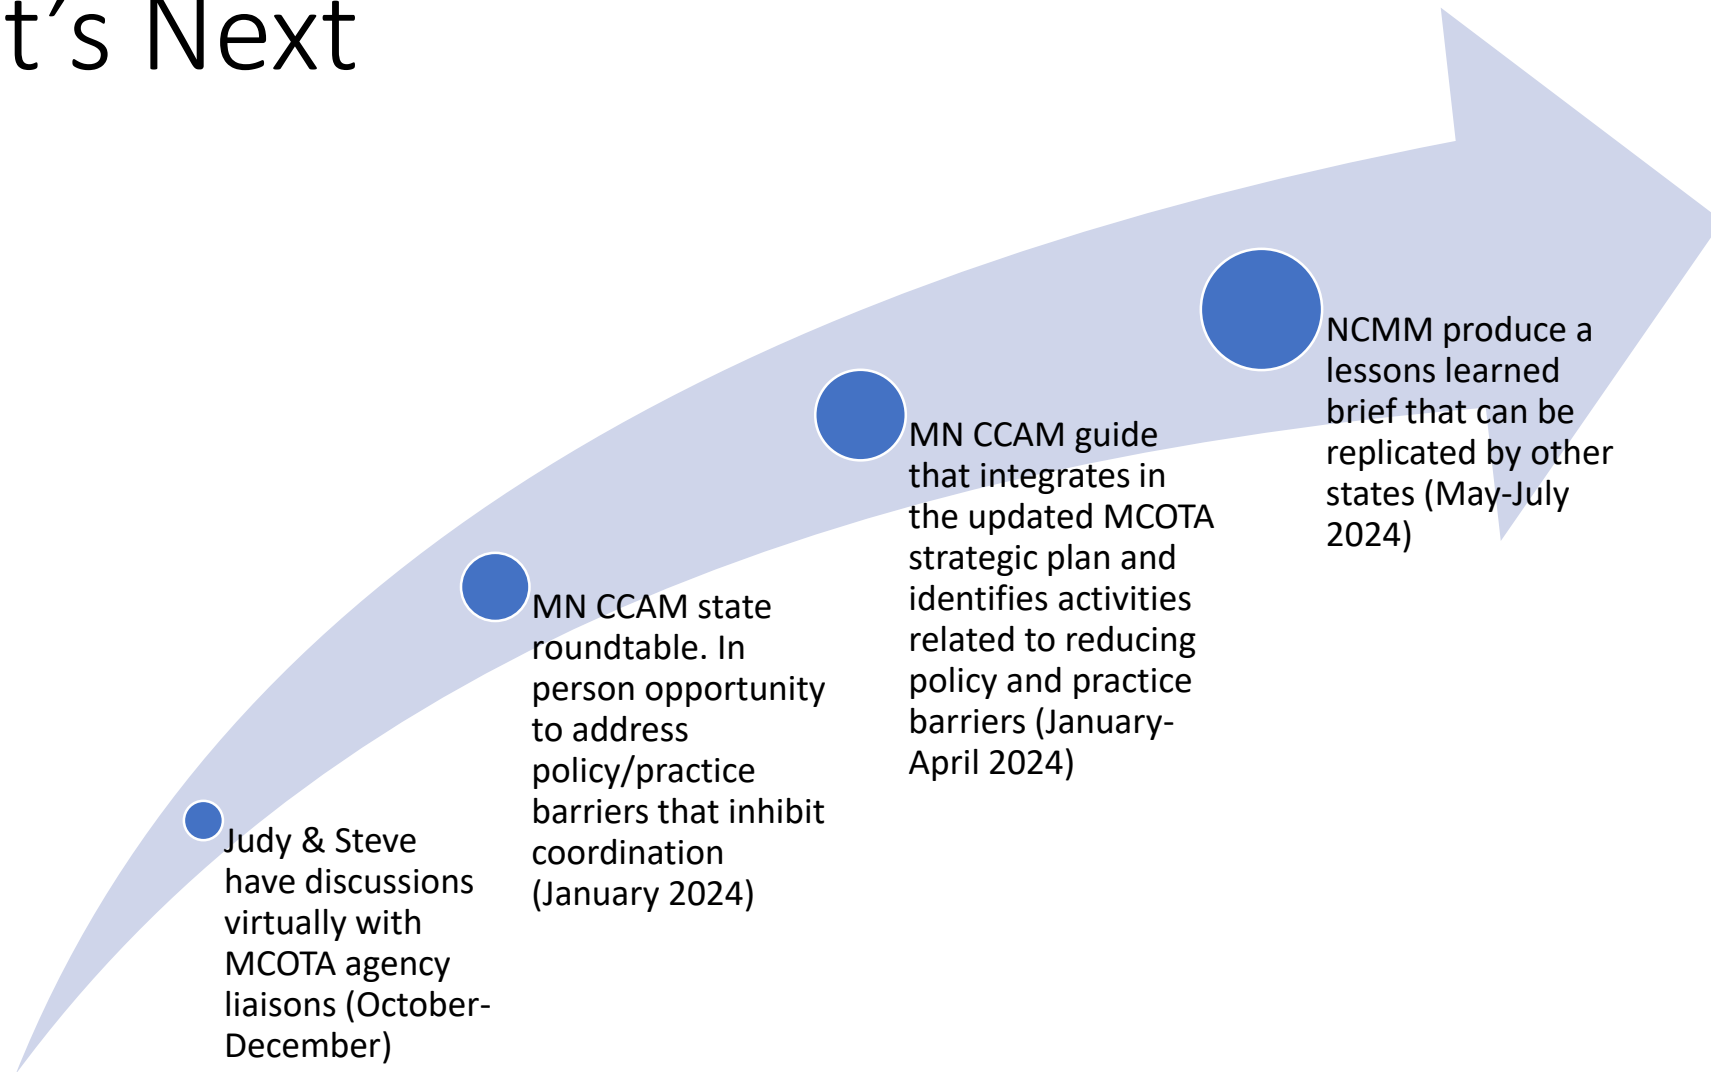

Figure 2. Access unifies CCAM partner agencies around one common mission

Ultimate Goal

What's Next

Your Help Please..

- Federal Transit Administration will send out note to Federal CCAM representatives of your agency to acknowledge your participation
- Please identify point person(s) for discussion – please send to Tom by October 6.
- Sample focus areas of conversation with Judy & Steve
 - What transportation services does your agency support and through which program?
 - Who is the targeted population for these services?
 - Do these programs have any explicit language regarding the intended use of program funds? For instance, can you share your vehicles with other programs, can you provide cost match, can you offer other financial support related to transportation?

Questions, Thoughts, Suggestions?

thank you
